## Artist Biography

My name is Jeff Smith, a common name is mine  
Which is why I branded, as Art of Frozen Time  
I finished Wright State, with a degree studying rocks  
Flew for the Air Force, avoiding those mountainous blocks

I strive for perfection, mistakes I must not make  
My wife and daughters, laugh with a different take  
I drive an old truck, it generally runs fine  
But there are those days, the tow trucks must align

I love chasing sunsets, and peaceful twilights too  
Those colors excite me, those reds, yellows and blues  
My photography caters, to Evidence-based design  
By giving the sick, a peaceful state of mind

As Golden hour arrives, I aim towards the light  
I counter the glare, keeping my aperture tight  
This light diffraction creates, a heavenly sun star  
So today my prints hold, this signature avatar

Some vistas are grand, as the sun sinks in the skies  
Ninety exposures it takes, as the shutter count flies  
Back home on the computer, I pray that I got it right  
I merge the many images, revealing a panoramic sight

As the end of day approaches, the parks become seclude  
I watch the sky ignite, creating a peaceful solitude  
I believe it's my calling, these moments in their prime  
Sharing the awe & wonder, ...the Art of Frozen Time
